

IATDMCT Congress 2017 Oral Presentations

2017/8/8

Session	Session title	Program No.	Title	Speaker	Institution	Country
<b>O25-1</b>	<b>Biomarkers for transplantation</b>	<b>O25-1-1</b>	Naturally regulatory T cell-specific demethylated region in FOXP3 as a biomarker to predict acute rejection in kidney transplant patients under immunosuppression with tacrolimus, mycophenolic acid and steroids	Eberhard Wieland	Klinikum Stuttgart	Germany
		<b>O25-1-2</b>	Combined Measurement of Immunosuppressive Agents, Creatinine and Hematocrit in a Single Dried Blood Spot Using LC-MSMS and Near-infra-Red Spectrometry	Erik van Maarseveen	University Medical Center Utrecht	The Netherlands
		<b>O25-1-3</b>	Biomarkers for steady state concentration prediction of cyclosporine A by pharmacometabolomics and gene polymorphism	Xiao-xue WANG	China-Japan Friendship Hospital	China
		<b>O25-1-4</b>	Urinary miR-155-5p and CXCL10 as prognostic and predictive biomarkers of rejection, graft outcome and treatment response in kidney transplantation	OLGA MILLAN	Hospital Clinic of Barcelona, University of Barcelona	Spain
